KB Associates Pte Ltd | KBA Training Centre Pte Ltd | KBA Marine Services Pte Ltd | KBA Engineering Pte Ltd | KB Access Pte Ltd | KB Associates (Europe)

Dear Jeslyn,

In a 'blink of an eye', we are already in October and 2014 has gone very fast. I guess this comes with being busy and age! KBA Group activities continue to grow and develop both in the consultancy and training services.

*KBA Europe has completed recent projects in The Netherlands, U.K. and Africa with new contracts and services developing. We are grateful to our clients who have shown support; for those who have requested KBA to establish our services and training in UK 3 years ago, as well as new clients and delegates attending our courses. With a new UK course venue located in Portsmouth, along with our IMCA DMT training centre in Chichester, UK, both locations provide quality training facilities at a centralised location on the south coast of England. These additional venues supplement our training centre based in Aberdeen. We are also pleased to announce a new training venue in Dubai where we will be launching two popular courses - **IMCA Trainee Air Diving Supervisor and OGP***

***Client Worksite Representative course.** Both courses currently scheduled on the 23 - 27 November 2014. We look forward to continual growth and developing our range of services, working along with our client and the changing environment.*

*In our previous issue, KBAT has shared the launch of four New Diving Training courses catered for the Singapore commercial diving industry. Today, we are pleased to announce that we are the **First Accredited Training Provider** approved by **Ministry of Manpower (MOM) Singapore** to deliver*

commercial diver to supervisor levels (level 1 to 4) of training in Singapore that is in accordance to national standards and endorsed by **Commercial Diving Association Singapore (CDAS)**. More details below.

KBAT has continued to reach out and raise the training options for competence development. You will read below of our recent first attempt to deliver **IOSH Managing Safely** training in Cambodia, partnering with **Bradley & Associates Co.** and the continual outreach to neighbouring countries such as Thailand, Brunei, Indonesia, Malaysia, Australia and Korea. KBAT has also been busy working with new training partners such as **Helix Media** to launch the new training course '**Crisis Communication Training**' on 30 October 2014. It is critical for organisations; and especially in the maritime and offshore industry, to have a crisis management plan in place to handle the press and influence public opinion in an event of any unforeseen circumstances.

While our training services have taken an exponential leap forward, our group overall has continued its consultancy services with an excess of 120 projects being undertaken over the past 3 months. One of these projects was the successful completion of the **IMCA Experienced Surface Supplied Diver Assessment** for **PT Advanced Offshore Services** divers (Indonesia Nationals) while working and supported by **TOTAL Indonesia** (Stroll down for full story). We have recently completed several FMECA projects in Asia, Africa and Europe based on our developed FMECA database which enables a detailed and clear structured approach to the methodology of the FMECA. This new structured approach has gained industry wide interest and we are looking at several new projects in the near future.

We hope that you find our newsletter useful and entertaining. Please feel free to contact us with any enquiries or for more information. Join us on Facebook page for regular updates.

Yours Sincerely,

Darren Brunton

Managing Director

Top News

1. KBA: Successful Completion of Surface Supplied Diving Assessment for Indonesia Divers In Accordance with IMCA Experienced Diver Assessment Requirements.

Over a two-week program from 19 Aug - 02 Sep, the first batch of 12 experienced divers from PT. Advanced Offshore Services (PT. AOS) has successfully completed their Surface Supplied Diver Assessment at TOTAL Indonesie (TEPI) offshore site installation in Balikpapan. The diver assessment was part of PT. AOS and TEPI commitment to bring the competence level of local divers up to international IMCA's standards.

KBA is the only company approved by IMCA outside the U.K. to conduct the experienced diver assessment program as such we were contracted by PT. AOS and TEPI to conduct the assessment. KBA are pleased to work with both organisations, assist with raising the safety standards and competence of local national commercial divers. The assessment was a resounding success, whereby all parties and individuals gained new knowledge and awareness during the training as well as sharing of experience and skills.

Ravi Rohidas from Advanced Offshore has commented *"I would like to thank TEPI Balikpapan, TEPI Handil, LSM provider Team and Darren Brunton and his team - Michael Whelan and Omar Bin Othman from KB Associates Singapore as well as the team of PT. AOS for all their efforts in the successfully completion of this assessment. We are now looking at the next step for the diver competency development with IMCA Diver Medic training."* [Click Here](#) for [Read More](#) the photos.

2. KBA: Presentation at Exxon Safety Seminar for Vessel Owners

During the first week of September, Darren Brunton was invited to **Exxon Safety Seminar** to give a presentation to the delegates. The seminar, held in Singapore, was aimed at personnel and contractors.

Darren presented the topic on **'Diver Safety'** commencing with an introduction, overview of safe diving practices and emphasised on why SCUBA should not be used for commercial diving activities. He reviewed several case studies and shared the consequences of any inappropriate use often results in 'diver fatality' - injuries, hospitalisations etc.

He further gave an overview of diving equipment, procedures, inherent risks and the importance of emergency planning. The delegates were mainly in the marine sector from Russia (Sakhalin) and Singapore; comments were made that they were not aware of such considerations or means to manage diving safely and welcomed the presentation.

3. KBA Europe: Presentation to North Sea Operators Diving Committee (NSODC)

Brendan Kearns was invited to the meeting of the NSODC, held at Shell's Woodbank House facility, Aberdeen. Brendan was tasked to discuss the status of assurance on diving systems and highlighted what has become an abundance of visits that may themselves lead to a down grading of the effect. This once again opened the discussion on sharing of information in ways done in other types of auditing.

The assurance process was discussed in general and demonstrated that auditing was only one part of the process. The failure mode and effects analysis, is a part of the overall assurance and this was discussed as a broad topic that is in need of some guidance to develop a logical boundary in much the same way as DESIGN documents produced by IMCA form the basis of audit terms of reference.

The topic was well received by the audience, all of whom represent bodies with vested interest in diving activities. Stamping over old ground is perhaps a risk however the relevance of latest thinking, the rise in FMEA/FMECA requirements, sharing of information and the simple realisation of how many times vessels operating for oil majors are subject to audit reviews was certainly eye opening.

KBA wish to thank Dave Hutchinson of **Nexon Petroleum UK Ltd** for inviting us to present on a subject that sits at the core of our existence and appreciated the time given by the participants of the meeting.

4. KBAT: New Alliance with Helix Media to Deliver Crisis Communication Training.

The media - through traditional and social media plays an undeniable role in shaping public perception. It serves as a double edged sword which can make or damage any company's reputation and if mishandled in times of crisis - 'bad news' can spread like wildfire.

Understanding the importance of media outlet, KBA Training Centre (KBAT) in collaboration with Helix Media Pte Ltd has established a Crisis Communication

Training course; the next one being run on the 30th October 2014 in Singapore.

This training is a professional development one-day course designed for executives from onshore/offshore management, ship owners, diving company management personnel, operators, managers or communication personnel who may be called upon to deliver key messages to the public. It will be an intensive and interactive training session that starts off with a fundamental overview of crisis, skills and strategy tips and moves on to provide case studies, lessons learnt as well as group 'role-play' involving a staged TV-interview.

5. KBAT: New Training Partnership in Cambodia (Bradley & Associates Co. Ltd) has been established and has delivered the 'First' IOSH Managing Safely course!

IOSH Managing Safely - KINGDOM OF CAMBODIA, PHNOM PENH
30 July - 01 August 2014

A chance reunion between two veterans of the Falklands War (Darren and Stephen) has led to further discussion of collaboration and leading to the first run of [IOSH Managing Safely](#) in Cambodia on the 30 Jul - 1 Aug 2014.

Stephen has been working in Cambodia conducting mine and munitions clearance for many years before he decided to start his own safety and training company, Bradley & Associates Co. Ltd (Cambodia). Stephen said *"Cambodia is still emerging and developing and I aim to help the development of health and safety culture in Cambodia to international standards. Moreover, IOSH is globally recognised as the leader in Occupational Safety & Health (OSH) and its courses definitely provide the fundamental knowledge for the safety professionals here."*

More course schedules along with [IOSH Working Safely](#) will be out soon in Cambodia. Keep a look out for the dates.

Industry & Course Updates

1. Upcoming Participating Events

a. KBA Training > Keppel Group Safety Convention 2014

KBA Training will be exhibiting at the upcoming Keppel Group Safety Convention 2014 on the 5 November 2014. This is an annual event where all business units of Keppel Group would gather to celebrate their safety milestones. Stakeholders from their varying businesses in offshore & Marine, infrastructure and property will be attending this event and we're looking forward to it. [By invitation only].

b. KBA Europe > IMCA Annual Seminar 2014

Date : 19 - 20 Nov 2014
Venue : The Landmark Hotel, London UK

Join those at the forefront of the marine contracting industry, who will gather from across the globe. The [programme](#) has numerous presentations given by specialists on technical, safety and environmental issues affecting the industry. 2014 focuses on the initiatives being employed to improve performance across all of IMCA technical divisions: Marine, Diving, Offshore Survey and Remote Systems & ROV. There will be plenty networking opportunities with three social events planned including *Welcome Reception*, *Night at the Museum* and *Night at the Circus*!

This year, KBA Europe will be exhibiting with Darren, Brendan and Debi representing KBA Group of Companies. If you have yet to register, you can do it [now](#)!

c. KB Associates > The 20th International Oil & Gas Industry Exhibition & Conference (OSEA 2014)

Date : 2 - 5 Dec 2014
Venue : Marina Bay Sands Singapore
Stand no.: 1R2-03

Join KBA at the biennial tradeshow that has served the offshore Oil & Gas market and its supporting industries. Over the years, OSEA has established as the region's most well-attended event and often attracting a vast range of attendees from different fields. This year, the exhibition is even larger with a total of three levels at Marina Bay Sands; showcasing the latest products/services from international exhibitors. If you're looking for the latest sophisticated technology and solution, don't miss this opportunity!

[Pre-Register](#) now.

2. Participated Events

a. Help Our Wounded Birthday Bash Cycle Ride ~ Scotland, July 2014

KBA Europe sponsored the event and are pleased that it was a great success! Not only has it been a meaningful fund-raising event aimed at helping U.K. Wounded Royal Marines & Supporting Arms, the Cycle Ride has been a great adventure and accomplishment for the participants who have cycled 660 miles in 2 days from Arbroath in Scotland to CTCRM in Devon, England!

[Click here](#) for more photos on Facebook.

b. IMCA Regional Meeting & Competency Seminar ~ Singapore, 27 Aug 2014

KBA Team attended the IMCA event on the 27th Aug in Singapore - the meeting was well attended with over 120 delegates from all areas in the region.

The dialogue on competency has generated considerations from various industries and has been brought forward for the IMCA committee to review. The meeting certainly has been beneficial for us to be updated with IMCA's latest developments and the new initiatives, while allowing us to contribute ideas to enhance both the IMCA processes and safety within the industry.

3. Safety Department NEWS

a) Announcements

i) NEBOSH Approval has been granted to KBAT for E-Learning on the following Practical Units

- Certificate in Fire Safety and Risk Management - Unit 2 (FC2)
- Certificate in Environmental Management - Unit 2 (EC2)
- International Diploma in OHS - Unit D (*Pending Unit A, B and C*)
- General Certificate in OHS - Unit 3
- Certificate in Construction Health & Safety - Unit 2

ii) [NEBOSH Environmental Awareness at Work Qualification](#) ~ **New Training!**

iii) [NEBOSH Diploma](#) New mode of combined learning to be announced shortly. This new learning will encompass our existing distance learning materials and give access to our new E-learning portal. Blended learners (full-time taught over 5 days + distance + E-learning) will have automatic access to this new learning portal.

b) **Courses Conducted Over the Past 3 months**

i) [NEBOSH International General Certificate](#) ~ 18-30 Aug in Singapore, 2-14 Jun & 1-13 Sep in Bali

- "Very informative." - **Sanjay Chawla**
- "Excellent interaction and instruction." - **Simon Scarlett**
- "Our instructor was very good and presentable." - **Matt Fosher**

The next training dates and location have been scheduled: Brunei on 10 - 22 November; Singapore on 27 October - 08 November; Bali, Indonesia 30 November - 12 December or 1 - 13 December; Dubai, UAE 13 - 24 December 2014. [Click Here](#) for the flyer.

ii) [NEBOSH International Technical Certificate in Oil & Gas Operational Safety](#) ~ 14 - 18 Jul in Perth - Australia, 23 - 28 Jun in Bali - Indonesia, 21 - 26 Jul and 15 - 19 Sep in Singapore.

Here are some extracts from feedback received by the students of the course:

"The videos were excellent, especially the Longford video. Very knowledgeable trainer." - **Ashely**

Tolliday

"It was interactive and enable fellow students do work together and share ideas in regard to their particular industry. resulted in a wider learning scope." - **Suresh Kumar**

This popular NEBOSH Oil & Gas training dates and locations are: Perth, Australia 10 - 14 November; Bali, Indonesia 3 - 8 November or 15 - 20 December; Bandung, Indonesia 13 - 18 October; Singapore on 24 - 29 November; Aberdeen, UK 6 - 11 October or 17 - 22 November 2014.

[Click Here](#) for the flyer.

iii) [IOSH Managing Safely](#) ~ 11 - 13 Aug in Australia-Perth for Hydratight

From Left: Wayne Horne, Mark Foggin, Doug Sangster, Nurul Mustapha (Trainer), Shannon Postma, Dean Jenkins

KBAT has delivered an in-company IOSH Managing Safely course for **Hydratight** in Perth, Australia. Some of the feedback gathered:

"Nurul is an excellent facilitator and got the best out of attendees. She also is extremely knowledgeable on the content." - **Shannon Jyles Postma**

"Trainer is knowledgeable and enthusiastic. Maintained a good pace throughout and got through the material in a timely manner. Never once had to revert to notes in order to get her message across. Well delivered." - **Doug Grant Sangster**

December 2014. [Click Here](#) for the flyer.

The next training is scheduled in Aberdeen, UK on 3 - 5

iv) [IOSH Accident Investigation](#) ~ 19 - 20 Jul 2014 in UK-Aberdeen

A group photo was taken after the delegates completed their workgroup investigation on the IOSH Accident Investigation course in Aberdeen, U.K. where Trevor Ashwell was the trainer. This course uses the IOSH 4 P and 5 Why methodology, leading to a bowtie and root cause analysis. Finally SMART objectives are developed to prevent reoccurrence. This is a useful hands-on course for any manager in any industry wishing to prevent recurring incidents or improve safety standards.

Accident Investigation is an essential skill for all HSE professionals and operation managers in any industry.

Other than in Brunei, this training is also available in Singapore on 17 - 18 November and Aberdeen, U.K. on 26-27 November 2014.

[Click Here](#) for the flyer.

4. Diving Department NEWS

a) Announcements

i) **FIRST Accredited Training Provider in Singapore to deliver Commercial Diver and Supervisor Training ~ NEW**

COMMERCIAL DIVER CAREER PATH
Be Inspired & Embark Your Training Journey With Us Now!

'First M.O.M Accredited Training Provider in Singapore'
'First Commercial Diving School in Asia'

LEVEL 1 Commercial Self Contained Underwater Breathing Apparatus (CSCUBA) Diver

LEVEL 2 Surface Supplied Diving Equipment (SSDE) Diver

LEVEL 3 Commercial Self Contained Underwater Breathing Apparatus (CSCUBA) Diving Supervisor

LEVEL 4 Inland / Inshore Diving Supervisor

We are pleased to announce that we are the **First Accredited Training Provider** for these courses and also the first where commercial diver and supervisor diving training is available in Singapore that is in accordance to national standards approved by Ministry of Manpower (MOM) Singapore and endorsed by Commercial Diving Association Singapore (CDAS).

KBAT Diving Team has since embarked on a pilot-program with a renowned local company during Q3 2013 and working very closely with MOM Singapore and CDAS in the course syllabus development prior to the approval.

This diving training program is for divers who inspire to become a commercial diver and to be certified nationally or for the existing pool of experienced diving personnel, who are deemed competent in commercial diving and whom may also opt to undergo the MOM accredited "Assessment Only Pathway" (AOP) for the certification.

There will be a total of four-level training

1. [Commercial Self Contained Underwater Breathing Apparatus \(CSCUBA\) Diver](#)
2. [Surface Supplied Diving Equipment \(SSDE\) Diver](#)
3. [Commercial Self Contained Underwater Breathing Apparatus \(CSCUBA\) Diving Supervisor](#)
4. [Surface Supplied Diving Equipment Supervisor \(also named as Inland/Inshore Diving Supervisor\)](#)

Course schedule are in the pipeline and will be out very soon. [Click Here](#) for more photos in our Facebook.

b) Courses Conducted Over the Past 3 months

i) IMCA Assistant Life Support Technician ~ 8 - 18 Sep 2014 in Singapore

KBA Training held the **IMCA** Assistant Life Support Technician training in Singapore. The course, only run 3 times a year is very popular and the training includes hands-on experience with our two decompression chambers and associated equipment.

"I would like to express all my appreciation for the ALST course just finished with KBA Training. I am really overall impressed by the KBA Training team for professionalism, patient, organisation and kindness. Since we met I was very happy with the KBA training facilities and the cordiality of the staff. Thank you for your patience when I ask to switch from KM hat course to ALST course. My personal thanks and gratitude to Alan to be able to handle such a difficult content for me to fully understand and

assimilate in these few days. His patience show me that he is not only a teacher but a very dedicate LSS to share his experience and passion for this profession to new potential ALST offshore." - **Matteo Cocoloni**

This next training is scheduled in Lake Charles, USA 10 - 20 November 2014 and also available in Singapore and Aberdeen, UK.

ii) OGP Client Worksite Representative Course ~ 15 - 19 Sep in UK-Portsmouth, 11 - 15 Aug and 22 - 26 Sep in Singapore.

Our FIRST course conducted in Portsmouth, UK was well received. The trainer, Brian Brockwell and the delegates commented that the facility is very well located on the south coast of England and is a great training centre. Feedback from the course:

- "Good content coverage and interaction by the trainer." - **Devendran C. Thiruchelvam**
- "Very informative and well presented" - **Paul Elliott**

The next training is scheduled in Singapore 10 - 14 November; Aberdeen, UK 10 - 14 November or in Dubai, UAE (*new location*) 23 - 27 November 2014. [Click Here](#) for the flyer.

iii) [MOM Inland/Inshore Diving Supervisor](#) ~ 25 - 29 Aug 2014, in Singapore

KBA Training conducted the MOM approved Inland/Inshore Diving Supervisor training (level 4) in August. This training is suitable for individuals who are already qualified as SSDE diver but wish to be certified nationally by Ministry of Manpower Singapore so as to further their commercial diving career in Singapore.

[Click Here](#) for the flyer.

iv) [Diving System Assurance Training](#) ~ 21 - 24 Jul and 23 - 25 Sep in Aberdeen, UK

The small class enabled detailed interaction with the trainer and delegates, one of whom travelled from Africa to attend the course. The quality of training they received was highly regarded. Feedback from the course:

- "Interactivity - discussions and the relaxed atmosphere within the classroom". - **Matthew Ward**
- "I enjoyed the calmness and the explanation of the instructor". - **Clifford Arwemoya**

[Click Here](#) for the course flyer.

v) [Failure Mode & Effect Analysis](#) ~ 25 - 26 Jul 2014 and 26 - 27 Sep in Aberdeen, UK

KBA Europe have successfully completed another **FMEA/FMECA** awareness course at our facility in Aberdeen, UK. Feedback from the course:

*"The interaction on the course and open discussion on the topic" - **Matthew Ward***

*"I love the team exercise and the training facilities were excellent." - **Kris Chambers***

*"The instructor's calmness way of listening and responding to questions." - **Cliffod Arwemoya***

The following course, held on 26 - 27 September, was an equal success. The training course is scheduled to be rolled out in Singapore for the first time on 7 - 8 October 2014 which we anticipate will continue the eye opening experience noted in both the USA and UK. [Click Here](#) for the flyer.

vi) [ROV Pilot Technician Induction Training](#) ~ 7 - 18 Jul 2014 in Singapore

Together with MTCS, we saw another successful run of ROV Pilot Technician Induction Training at our Singapore facility in July. The 10-day ROV induction course begins a 1 year blended learning program focusing on technical and operational concepts within the ROV industry. The course includes:

- Types of ROV systems used
- Safety Management Systems
- Basic Seamanship
- ROV Operations
- Basic Piloting of an ROV system on a simulator
- Technical system overview
- Electrical and hydraulic maintenance requirements
- Camera and Video systems
- Umbilical retermination including fibre optics
- Underwater tooling
- Client workshop visit
- CV (resumé) clinic

The next training is scheduled on 06 - 17 October or 01 - 12 December 2014. [Click Here](#) for the flyer.

vii) [Diver Medic Technician Training / Refresher](#) ~ Singapore, Kuala Lumpur - Malaysia, Chichester - UK

The next **DMT** training is scheduled in Singapore on the 7 - 17 October or 10 - 21 November; Malaysia - Kuala Lumpur on 8 - 18 December 2014. **Refreshers** are scheduled in Singapore on the 27 - 31 October or 1 - 5 December; Chichester, UK on 27 - 31 October or 3 - 7 November 2014. [Click Here](#) for the flyer.

Some feedback gathered from the course:

• *"I was extremely impressed with the structure of the course and the level of expertise of Wayne Lee and Dr. Kevin Chan, both instructors have exceptional teaching abilities, they managed to provide an informative,*

*thorough and entertaining lesson for the duration of the course. Having experienced many Dive Training facilities in both the recreational and commercial side I was also very impressed with the comfortable and professional surroundings of your classroom settings/Office area." - **David Van Cuylenburg***

• *"I enjoyed all hands on & drills. Shows you what can and will happen in real cases. Very well done." - **Warwick L Clark***

• *"Staff, food & cleanliness at the location in KL were excellent. Very happy with doing my course here again." -*

Matt Du Plessis

DMT, Singapore (11 - 22 Aug 2014)

DMTR, Singapore (11 - 15 Aug 2014)

5. KB Access Department NEWS

a) Announcements

i) [Accredited for Work at Heights Course for Assessors - Integrated](#)

Required for all industry personnel who would like to be an Assessor to assess WAH activities. Compared to the WAH for Assessor course, the integrated course does not required the candidate to hold a supervisor certificate. The next training is scheduled on 09 - 10 October, 25 - 26 November or 22 - 23 December 2014. [Click here](#) for the flyer.

ii) [Accredited for Work at Heights Course for Managers - Integrated](#)

This course provides the requisite WAH knowledge to supervise and manage work at height activities, so that they are carried out properly and safely. Compared to the WAH for managers course, the integrated course does not required the candidate to hold a supervisor certificate. The next training is scheduled on 16 - 17 November or 27 - 28 November 2014. [Click here](#) for the flyer.
