- KB Associates (Europe) Ltd

Dear Jeslyn,

As this is the last BITE SIZE e-Newsletter for 2012, you will see it to be rather long! This is mainly because we wish to update you what we have been doing and also share with you some new industry developments. So I hoped you are able to take 5 min from your busy schedules to have some light reading, while thinking - soon we will be on our Christmas break! So here we go.....During this last quarter of 2012 there has been an unprecedented level of competency development and training being delivered by KBAT. Our training team supported by our hardworking training administration team (who a lot of you know - Lisa, Joanne, Angelica and Rose) have been providing our NEBOSH, IMCA and IOSH courses in 11 countries now!

Our IMCA DMT courses have expanded to deliver in Singapore, Malaysia, India, Dubai and Saudi Arabia; our NEBOSH and IOSH courses in Hong Kong, Singapore, UK, Indonesia (Bali) and Australia (twice) and we have conducted IMCA Trainee Supervisor/ALST and OGP Worksite representative courses in USA and China and finally we have our KMB DSI helmet technician courses in Saudi Arabia, Singapore and Dubai.

We wish to express our gratitude to all our clients and customers for your support. We will continue to strive to provide the high level of training with up-to-date training aids, equipment, facilities and material expected, so as to provide you with more than just a course but a training experience you won't forget!

We are glad that our latest courses in 'First Aid training' and 'Working at Height for Supervisors' have finally been accredited by the Singapore Ministry of Manpower (MOM) and Workplace Safety & Health Council (WSHC). We are now very pleased and proud to share with you that these two courses are both National and International accredited.

Our deck decompression chamber has now been upgraded and is fully operational for DCI treatments and DMT

training. Our chamber has also been audited by MOM for man lock and medical lock training (Pressurised Tunnelling works) courses which will be available to you very soon with MOM's approval.

We are looking forward to a brand new year with new exciting developments involving diver competence training, medic training, National NEBOSH qualifications, and much more; together along with our full time team of trainers and friendly administrative team we look forward to bring you a new dimension and experience for your training requirements.

So much from the training side of business - KBA has been extremely busy with assurance auditing reaching as far as South Africa. We have also been involved with several diving system FMEA/FMECA in Asia and Europe (check out our top news outlined below). Additionally, the good news is that 2013 is looking to be a very busy year for us - and if we are busy then the industry is very busy!

Lastly, KBA Group wish everyone a Merry Christmas & Prosperous Happy New Year 2013! Have a great pleasure reading! Please feel free to contact us for more information.

Yours Sincerely,

Darren Brunton

Managing Director

Top News

1. KBA at BP Diving's 3rd Annual Diving Workshop ~ London, 13 - 14 Nov 2012 (Brendan Kearns presented on Diving System FMEA/FMECA)

KB Associates were kindly invited by BP Diving to present at their 3rd Annual Diving workshop held in London on November 13th and 14th 2012. The workshop was an excellent event with BP's diving responsible personnel and technical authorities in attendance, highlighting events as seen from BP's perspective while allowing industry developments to be highlighted by selected external company representatives. Time was limited on each address and with that in mind, KBA choose to discuss a large subject, not teaching, training or instructional tools but rather as an offering of a conceptual statement.

The subject was the much discussed diving system FMEA/FMECA and the aim of the statement was to suggest a means that would enhance the usability and usefulness of the created document. The word

"LIVE" is often mooted when discussing such assurance procedures, yet in reality, most interested parties don't know of their existence or whereabouts. The suggested and practiced approach by KBA has been to form the deliverable document into one whereby reference is made to the items and areas as opposed to the overall systems. The benefit is that the result can be targeted to the individual's areas of responsibility and expertise, in turn enabling a more concise and complete understanding of the specific area without the necessity to work through and understand the entire document. It further promotes the idea of advancing the document by those very same interested parties who are now able to see the relevance to their specific field and thus keeping it "LIVE" by active input.

2. KBA Europe: Approved by Career Transition Partnership (CTP) as the Preferred Suppliers for our training courses

A preferred supplier to the
career transition partnership
The Ministry of Defence working with Right Management®

KB Associates (Europe) Ltd with the supporting training provider KBA Training Centre Pte Ltd has been approved by CTP as one of the **Preferred Suppliers (PS)** for our training courses offered.

This allows UK service leavers to attend a range of the courses offered by KBAT both in the UK and overseas when they are scheduled to leave the service.

We are in the midst of updating our KBA Europe website to feature all the Approved CTP courses which will be available to you very soon.

Industry & Course Updates

1. Participated Event

a. Subsea ASIA 2012 (3rd Asian Subsea Conference and Exhibition) - KLCC, 4 - 5 Oct 2012

KB Associates exhibited at the Subsea ASIA 2012, held in Kuala Lumpur (KLCC) - Malaysia on October 4th to 5th 2012. SUBSEA Asia 2012, the 3rd Subsea Asia Conference and Exhibition was a successful show; consolidating its positions as Asia's most specialised subsea engineering event.

The SUBSEA Asia series continues to cement its position as the leading sales platform for technology suppliers looking to capitalise in this expanding sector; if you missed it, the next SUBSEA Asia 2014 Exhibition - 4th Edition will be held from the 12 - 13 June 2014.

b. SISO - 10th Annual Workplace Safety & Health Officers' Conference - Singapore, 2 Nov 2012

KBA Training Centre exhibited at the SISO 10th Annual WSHO Conference - *Transforming the WSH Professional*, held at Singapore Orchard Hotel on Friday 2nd November 2012. More than 500 WSH professionals turned up at the conference and Guest-of-Honour Er. Ho Siong Hin, Commissioner of Workplace Safety and Health, Ministry of Manpower spoke about how WSH professionals need to keep abreast of and address the challenges in the changing landscapes.

In his speech, Er. Ho urged WSH Professionals to be both a generalist as well as a specialist. Not only do professionals have to be the expert in WSH, they must also be well versed in the processes of the industry they work within as well as possess good people skills so that they can successfully get their bosses and colleagues to support WSH implementation in the company.

It was a great session to catch up with the local WSH professionals who have always expressed interest in safety training to enhance their competencies.

c. OSEA 2012 - The 19th International Oil & Gas Industry Exhibition and Conference - Singapore, 27-30 Nov

Busy at the booth

From left to right:- Jeff Zhang (Shanye Marine- China); Darren Brunton (KB Associates); Phil Newsom (ADCJ-USA); Randy Davies (Borneo Divers- Malaysia)

KB Associates exhibited at the OSEA 2012 and were impressed with the superior quality of the event. We met up with existing customers to follow up on business leads, renew business ties and hopefully to form new alliances. 26,713 attendees from 75 countries / regions came to OSEA2012 from Tuesday 27 November to Friday 30 November, making this edition the biggest turnout Asia's premier oil and gas trade event has ever seen.

Cementing its position as the premier sourcing platform in Asia for the oil and gas industry, OSEA2012 saw scores of visitors checking out the latest products, technologies and innovation across the 31,720 square metre show floor. We have seen other exhibitors who were busy networking and closing deals, with some choosing to launch their latest products and services at OSEA2012. Industry visitors were similarly impressed by the scale and quality of the show, which offered them a diverse sourcing ground for their companies' needs.

Once again, OSEA2014 will return on 2 - 5 December at Marina Bay Sands, Singapore and we look forward to that.

2. Safety Department NEWS

Announcement: NEBOSH Graduate Results ~ Sept 2012

Three hundred and twenty eight NEBOSH Diploma students from all around the world came together at the end of June 2012 to celebrate their success at a graduation ceremony held at Warwick University. We have now received NEBOSH announcements for Sept 2012's results and congrats to all students who deserved a 'huge pat on the back' for their hard work.

One of our Diploma graduates - **Richard K. Wasiluk** commented, "*having spent the last 4 years studying for the International General Certificate and now the International Diploma I believe that I have been extremely lucky to have found a school that you can call or visit and get help from the trainers at any time. The trainers take your progress very personally and are proud when you obtain success. These qualifications are globally recognised and having achieved passes gives my success of obtaining a higher recognised position in the company or even in future employment opportunities.*" (Check out below at Delegate Profile to read up more on Richard's journey)

a) New Training Courses

i) [CIEH Level 2 Award in Control of Substances Hazardous to Health \(COSHH\) ~ New Course](#)

This qualification complements the CIEH Level 2 Award in Health and Safety in the Workplace by introducing candidates to the inherent risks in substances and the controls available. This will benefit anyone working with hazardous substances in a workplace and the programme focuses on the information employees need to know regarding substance hazards and

their control. This training is important as it will prepare employees to contribute to the safer use of hazardous substances in co-operation with their managers and supervisors.

The next training has been scheduled on 25 January 2012. [Click Here for the flyer](#) or [Contact us](#) for the schedule.

ii) [ILM Coaching for Competence ~ New Course](#)

This programme run by ITB Aberdeen is designed for anyone who will carry out workplace coaching or one-to-one training in the workplace but specifically designed for discipline technicians who are involved in coaching to meet in-house competence standards.

What the course will cover

- The context for effective workplace coaching
- The process and content of effective workplace coaching
- Preparing and delivering structured one-to-one training
- How to plan and organise workplace coaching
- How to conduct coaching sessions
- How to use coaching to change Negative Beliefs
- Understanding how important coaching / training is within your in-house Competence Management System

[Click here for the flyer](#) or [Contact us](#) for more information.

iii) [Working at Height Training](#) ~ Accredited by ***IOSH and MOM***

Our working at height training is now accredited by both IOSH UK and MOM Singapore (*note: there is a slight difference in the syllabus especially on the legislation*). This marks an important achievement for KBA where you are able to attain either a national or international qualification that you deem as more beneficial for your development.

The aim for the course is to provide participants with the requisite WAH knowledge to supervise and manage work at height activities, so that they are carried out properly and safety.

- [MOM Working at Height for Supervisor Course Flyer](#)
- [IOSH Working at Height Course Flyer](#)

b) Courses Conducted Over the Past 3 months

i) [NEBOSH International Technical Certificate in Oil & Gas Operational Safety](#) ~ Popular

KBAT have run the ITC in Singapore, Bali and Melbourne over the last month and all candidates have discussed the specialist technical hands on process safety content of this NEBOSH course in oil and gas operational safety. The venue in Melbourne was at the Eden Bay View Hotel which is an historic building and via our partner Phitagoras at the Novotel Bali Nusa Dua in Indonesia. In addition to these courses we had a number of distance learning candidates who have sat for the Global Examination worldwide on the 6th September 2012 - ***KBAT are pleased to announce our 100% pass rate for these global examinations.***

The next training has been scheduled in Singapore 4 - 8 Feb 2013 or Aberdeen(UK), 18 - 22 Feb or 18 - 22 Mar 2013, or Dunfermline, Rosyth (UK) 22 - 26 Apr 2013. [Click Here](#) for the flyer or [Contact us](#) for more information.

ii) [NEBOSH International General Certificate in Occupational Health & Safety](#) ~ Perth, 22 Oct - 3 Nov 2012

We have run our first full-time IGC course in Perth, Western Australia on the 22 Oct - 03 Nov 2012 at the Regus House - St Georges Terrace offices. The convenient location in Perth City provided ease of access and logistical convenience. The course was as always an intense session with plenty of discussions and interactions. A comment from a candidate sums it all up "NEBOSH IGC was by far the best training I have been on. Very intense but very informative and very well run."

The next training has been scheduled in Bali, 4 - 16 Feb 2013 or Singapore 18 Feb - 2 Mar 2013. [Click Here](#) for the flyer or [Contact us](#) for more information.

iii) **NEBOSH Certificate in Environmental Management** ~ Bali, 19 - 23 Nov 2012

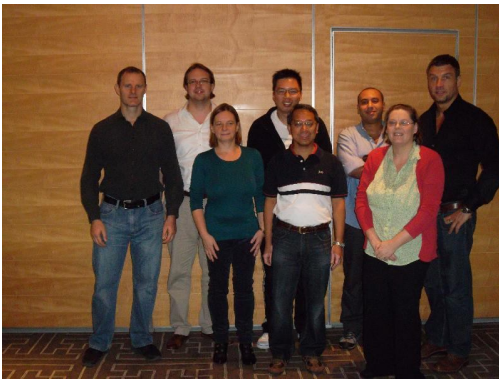

Another First for KBAT and in the region - We had our inaugural launch of NEBOSH Certificate in Environment Management in Bali, Indonesia on the 19 - 23 Nov 2012. This five-day course covers environmental management systems & impact assessments, sources and use of energy & energy efficiency, control of pollution, planning for & dealing with environmental agencies.

The next training has been scheduled in Bali, 18 - 22 Feb 2013 or Singapore 15 - 19 April 2013.

[Click Here](#) for the flyer or [Contact us](#) for more information.

iv) **IOSH Managing Safely Training** ~ Hong Kong, 14 - 16 Nov 2012

The IOSH Managing Safely course was held at the Novotel City Gate Hotel (Lantau Island, Hong Kong) on the 14 - 16 November 2012. The venue was near the airport/metro for easy access for candidates. The candidates participated in all the activities and found the IOSH games very enjoyable - the homework and assignment were not greeted with dismay but completed with vigour. KBAT look forward to running the next IOSH MS course in Hong Kong.

The next training has been scheduled in Singapore 23 - 25 Jan 2013 or Bali 18 - 20 Mar 2013. [Click Here](#) for the flyer or [Contact us](#) for more information.

vi) **Raffles Medical - Infection Control cum Quality Day event** ~ Singapore, 16 Nov 2012

We were pleased to be invited by Raffles Hospital to their **Infection Control cum Quality Day event** held on the 16 Nov 2012. It was an annual half day event held in the hospital to commemorate the annual national Quality month as well as the international Infection Prevention Week. The aim was to reach out to the hospital staff by creating awareness and sharing the knowledge during this event, which encompass the various aspects of quality i.e. Infection Control, Patient Safety, Workplace Safety, and Service Quality.

Our trainer Nurul Asshekin Mustapha shared on **An Overview of Health and Safety**, and we received great

feedback from Raffles Hospital - "The talk was informative and benefited the staff. It certainly reinforced our staff the importance and understanding of workplace safety, and how it affects us in our day-to-day activities. Our staff also enjoyed the interactive sessions."

3. Diving Department NEWS

a) New Training Course - [Client Offshore Diving Safety Awareness](#) ~ New

This 5 day course aims to cover all aspects of Air & Saturation diving methods & procedures. Participants will receive an overview of the reasoning and methodology behind the planning and execution of a professional offshore diving operation.

At the end of the course, participants will have an understanding of working with divers and the latest diving techniques as well as to understand

the medical, physiological & practical restrictions placed on divers & subsea works.

[Click Here](#) for the flyer or [Contact us](#) for the schedule.

b) Courses Conducted Over the Past 3 months

i) Diving Regulations & Diving Safety Awareness ~ 22 - 26 Oct 2012 (With TOTAL)

TOTAL have recently sent six of their regional diving focal personnel on our Five-Day awareness training in Singapore. Delegates arrived from as far away as Qatar, Nigeria, France and Indonesia. During the course, theory aspects of diving operations and safety were covered (see diving safety awareness course details above) as well as site visits to a local diving company along with a DDC dive carried out.

ii) [OGP Client Worksite representatives Training](#) ~ Singapore and USA

Lake Charles - USA, 15-19 Oct 2013

Singapore, 29Oct - 2Nov 2013

This course offers a holistic overview of the roles and responsibilities of the offshore work site representative, offshore legislation and the common issues affecting offshore construction, diving and maritime operations. These issues are further explored to deal with regional differences.

The training is structured on the OGP Diving Recommended Codes of Practice - 'Diving Recommended Practice' and 'Diving worksite representative roles, responsibilities & training'; with reference to IMCA documentation.

"I've been involved in offshore operations as client rep but this good course gives me a structural requirement for the work. It's interesting and useful." - Huynh Trieu Hung from TNK Vietnam
"I have achieved the goal of gaining a more detailed, in depth knowledge required to carry out my work offshore. It was a pleasure to take the course with KBA, I will be back for a NEBOSH & auditing course." - Duncan Hockey

[Click Here for the flyer](#)

iii) [Diver Medic Technician Training](#) ~ UAE, Saudi Arabia, New Delhi

Our medic trainers were busy over the past two months conducting DMT/DMTR in UAE, Saudi Arabia, Malaysia, Singapore and New Delhi. It has been a fruitful experience for both Wayne and Razali to share medical knowledge while getting the students to understand the theory as well as undertaking the practical scenarios.

Throughout the 10 days training, delegates were trained in different medical emergency scenarios to enable them to react and respond quickly to real life situations. They were also taught on the pre hospital care medical procedures and all aspects of the IMCA syllabus which will help to enhance their knowledge and put into practice.

The next training has been scheduled in Singapore, 7 - 18 Jan, or 28 Jan - 8 Feb or Malaysia 12 - 21 Jan or New Delhi 11 - 21 Feb 2013. [Click Here for the flyer](#) or [Contact us](#) for more information.

DMT > Jeddah, 6 - 15 Nov 2012

UAE > DMT (17-26Nov) & DMTR(27Nov-1Dec)

DMTR > Singapore, 29Oct-2Nov

DMTR > Archirodon(Jeddah), 1 - 5 Nov

DMTR >Singapore, 26-30Nov12

iv) **Kirby Morgan Helmet Technician Training** ~ Jeddah, Dubai and Singapore

During the months of November and December KBAT have trained and certified over 40 KMB/DSI helmet technicians in three countries on a three day accredited course. The course is hands-on and covers the full range of helmets and regulators available from KMB.

Our dedicated 'hat training room' in Singapore with 12 KMB Helmets / masks and full sets of tools allows delegates to get fully involved with the practical side of the training. With four approved trainers within our full time staff we are able to provide the course either as an in-house or on site course. Come along to one of our scheduled courses in Singapore that has been scheduled on 21 - 23 Jan or 25 - 27 Feb 2013. [Click Here](#) for the flyer or [Contact us](#) for more information.

c) **Partner with Healing Chamber of ASIA to deliver IMCA DMT in Kuala Lumpur, Malaysia**

KBA Training has signed a MoU with Healing Chamber of ASIA to deliver IMCA Diver Medic Technician course in Kuala Lumpur, Malaysia. We are pleased to announce our first launch for DMT on the 15 - 24 December 2012.

KBAT's DMT/ DMTR training upholds IMCA course curriculum and standards and provides a robust foundation of practical drills/ scenarios and theory for personnel to develop their competence in this specialised area of emergency management. Together with the support and facility that HCA offers, rest assured of the quality training that you will receive.

Keep in tune for the photos we will be taking during the lesson. The next training has been scheduled on the 12 - 21 Jan 2013. [Contact us](#) for registration.

3. Delegate Profile

Congratulations to Richard! He has recently completed his NEBOSH International Diploma in Occupational Health & Safety.

Richard K. Wasiluk
Technical Support Manager / HSE Advisor Trainer (Rolls Royce)

When did you become interested in health and safety?

I became to have an interest in Health and safety when it was asked by my company to look after a project in UK where one of the requirements for the project Manager was to have a C.I.T.B. Site Management safety training course for the building & civil engineering industry. I took on the course and completed in 1999. After the 6 month project I continued to get involved with Health and Safety; looking at all activities in the business and setting up documentation to cover all risk assessments and other health and safety activities.

How has a NEBOSH qualification helped you with your career?

Neboosh has given me the confidence to carry out further HS&E Training and Activities to cover auditing and accident investigations for examples.

Which is more important experience or qualifications and why?

I believe that they both run in parrell. Experience can give practical examples of situations whereas qualifications allow you to understand the reasons behind the situations and gives you the knowledge of how to implement solutions in a correct and controlled manner.

While studying at KBAT please describe your training experience and how this has benefited you with your career?

Having spent the last 4 years studying for the International General Certificate and now the International Diploma, I believed that I have been extremely lucky to have found a school that you can call or visit and get help from the trainers at any time. The trainers take your progress very personally and are proud when you obtained success.

These qualifications are globally recognised and having achieved passes gives my success of obtaining a higher recognised position in the company or even in future employment opportunities.

How did you get your current job?

My current position was offered to me after moving out to Asia; a position became vacant in Singapore and my name was put forward as a possible replacement.

Describe an average day in your job?

My main role is to support Technical issues within the Asian Pacific region which starts in India down to Australia. I need to travel every two weeks on average to carry out customer visits or technical rectification when required. I have to carry out UHA (Unit Health assessments), safety audits on customer sites and all the safety training for our field service representatives. I also have to carry out engine major strip on the Aero engines based in Singapore as well as to attend all safety committee meetings on site and customer safety meetings when required.

What health and safety subject are you most interested in?

Accident Investigation

What is your advice to those aiming for a career in health and safety?

Get into the industry early, specialise on a particular subject which interests you as the subject matter is vast.
